Customer Reviews

I own the first volume coloring book in this series and I loved it so much that I colored every page. I believe that the drawings in this book are even cuter! Each page includes a scenic background. What I love about the books in this series is that they are simple drawings, not overly intricate like a lot of the other adult coloring books out there. I have only colored a few pages in this book so far, but I'm sure that I'll end up finishing the whole book once again!
