Finally! A real TSO guitar tab book!!!! I have been a fan for over 15 years now and have seen TSO live 9 times. This guitar tab book is amazing! It features all of TSO's hits and then some! It spans most of TSO's albums up until Night Castle. Christmas Canon Rock, Christmas Eve Sarajevo, Requiem the Fifth, Wizards in Winter, A Mad Russians Christmas, First Snow, The Mountain and more! Features multiple tracks tabbed out for each song such as rhythms, solos, fills. I have played through the book and it seems dead accurate. Playing along with the cd is so much fun! Heads up TSO fans, Hal Leonard is also publishing a TSO book for their Guitar Play Along series. Not sure on the date of release yet but you can search for it on through the sort by Publication feature. That one will include a cd to play along with on selected TSO tracks. Anyway this book is a must have for any

TSO fan who who is a guitarists and wants to learn some of their best songs.

Cool book. Always wanted to know how to play some of the songs. They do have some of the synth parts transcribed for guitar.

This is a must-have for any TSO fan! With so many horribly wrong tabs on the internet, it's nice to finally have accurate tabs. Awesome song selection including Savatage's version of "Mozart and Madness."

Great tab book!

The only improvement would be if this was spiral bound so it would lie open.
