Customer Reviews

Maybe I should've read more reviews! I bought it as inspiration for my metal detecting husband. I was a little embarrassed it was so short and written at a 5th grade level with big print. No pics. He appreciated it and was motivated hence the three stars.

This book is loaded with stories about actual fantastic finds. Gold, relics, hoards, and the list goes on and on. Can't wait to start metal detecting next year. This book certainly wet my appetite.
