Introduction To Social Work: An Advocacy-Based Profession (Social Work In The New Century)

Synopsis

Introduction to Social Work by Lisa E. Cox, Carolyn J. Tice, and Dennis D. Long is an exciting and timely new text that takes readers to the roots of the social work profession, framing its history, practice settings, and career paths through the lens of advocacy. Closely aligned with the latest Educational Policy and Accreditation Standards (EPAS), the text goes beyond standard coverage to explore such cutting-edge content as military social work, environmental issues, global/international social work, housing, and more. Robust, applied pedagogy and an emphasis on advocacy and reflective practice help underscore the transformative opportunities and contributions of social work on clinical, client, community, national, and international levels.

"I wish we had had this text when I was in my undergraduate social work program."--Marcia Shobe, University of Arkansas"A well-balanced, action-oriented social work book that speaks to advocacy as the heart of the profession."--Halaevalu F.O. Vakalahi, Morgan State University"I can imagine students who have no knowledge of social work reading this text as a part of class and getting excited about the possibilities for the kind of work they could do."--Alice Gates, University of Portland"This is an incredibly readable text."--John Q. Hodges, University of North Alabama"The breadth of coverage is very good, from the basic areas of practice (children, aging, etc.) to 'newer' areas like global/international issues and environmentalism. The book's discussion of international issues makes them seem relevant to today's social workers wherever they are practicing, and this is an important contribution."--Carol Jabs, Concordia University Chicago"I wish we had had this text
