Stationen, 2nd Edition (World Languages)

Synopsis

STATIONEN: EIN KURSBUCH FÃœR DIE MITTELSTUFE, Second Edition is an innovative, intermediate German program that combines engaging cultural topics with authentic readings and contextualized grammar in a unifying context. Each chapter of STATIONEN revolves around a city or region in the German-speaking world. This overarching concept brings the program together and invites students and instructors to make connections and comparisons between chapters, topics, and cultural issues. STATIONEN also refers to the "stations" between the first beginnings of a journey into German life and language and to more advanced study and exploration on the intermediate level. In addition, the accompanying video component contains footage of videoblogs from eleven cities in Germany, Austria, and Switzerland that complements the textbooks content and serves as windows to contemporary German culture. These snapshots of everyday life connect interview clips with images of public spaces to move students beyond the realm of ordinary language instruction and into the scenarios and situations that reflect a developing German speaker's real-world needs.

Prisca Augustyn is an Associate Professor of German and Linguistics at Florida Atlantic University, where she has been in charge of German since 2002. Prisca teaches courses in German, linguistics, and semiotics. Her interest in how we form subjective models of the world through

language informs not only her research in linguistics/semiotics, but finds expression in the development of teaching materials and methods for the classroom. She and her co-author Nikolaus Euba (University of California, Berkeley) recently finished the third edition of *Stationen*, a textbook for intermediate German. Selected as the AATG 2013 Post Secondary Outstanding Educator, Nikolaus Euba holds an M.A. degree in "Deutsch als Fremdsprache" from the Ludwig-Maximilians-Universitt in Munich. Before coming to California, he taught and coordinated German courses at Miami University (Ohio) and the University of South Carolina. At Berkeley, he directs the German Language Program and mentors the Graduate Student Instructors who teach language courses. His research interests focus on integrating (literary) texts into foreign language teaching and learning, a topic on which he frequently develops workshops and gives presentations. He is a consultant to the College Board's AP program in German and to the National Evaluation Series (NES). After having directed and taught numerous summer study workshops in Heidelberg, Jena, and Berlin, he now coordinates the language program at FUBiS (Freie Universitt Berlin in the Summer). He is a recipient of the Star Award for Excellent Service to the Student Community (1998), of the Mortar Board Excellence in Teaching Award (2001) and of UC Berkeley's Faculty Award for Outstanding Mentorship of GSIs (2007).

I only bought a brand new book because I thought it would have the online access card with it, one that has never been used. I was disappointed when it didn't come with one at all. The back cover of the book directs you to the website where you have to buy it separate. should put it up somewhere that it doesn't come with online access before students drop all that money.

The book was used. Very used! The answers to the grammar exercises were partly filled in. **WHAT GOOD DOES THAT DO?**

This book is in very good shape for being a college textbook. There is some writing in it, but the pages are not falling out, and I think it should last a few more years. Being a college student, it is very important that I save money in whatever I do, and this price was much cheaper than the other places I looked.

It's a fine textbook. If you're looking at this page, it probably means you're required to buy it for your class anyway, so I doubt any review will have any impact on your decision. Grammar lessons are concise, and texts are interesting. As with most textbooks however, this book is way too expensive,

especially considering it's not even a hardcover.

Listing is for book plus Student Activity manual plus CD ROM and only the book was delivered

The book is fine, and and it even came with a big orange sticker on the front that says "multivolume set do not separate" which i'm assuming to mean that at one point a quia card was intended to be paired with it, but there is no card at all. no code at all. rip off. i could've bought this from my local student store, gotten it new and the card included for what it's going to cost me to have to purchase the semester on quiz separately plus this book. I would've preferred to be scammed locally rather than support an outsourced business.just horrible.

Book arrived in fine shape as described. Some of the writing that was done in the book is lightly in pencil, and can be erased.

A good language book.
