## **Customer Reviews**

I'm so disappointed with this purchase. I bought it specifically for snacks and desserts. There are only 5 dessert recipes and 7 snacks. There are maybe 125 recipes total, which means each of the four books in the box would have about 30 recipes. Bright side - some of the recipes look good! I just really expected much more.

I like the recipes in this book, but I think it's deceiving to call it a "boxed set." It's really just one 250-page volume with various sections.

This was advertised as a "boxed set", but was one book. Has good recipes, so it was a good purchase for me.

great resource for low carbing

Was very disappointed with this book. I was hoping for something really innovative but found the recipes to be very bland and boring.

love these books, lots of recipes good information

good recipes, but no index is a real loser

Good recipes that use ingredients I can easily find at the local grocery store.
