# Turkey: More Than 100 Recipes, With Tales From The Road

## Synopsis

Turkey's culinary customs are as rich and varied as its landscape, and award-winning food writer Leanne Kitchen does justice to them both with more than 170 glorious photographs of the country's foods and people that make readers want to drop everything and board the next plane. More than 100 recipes from across seven diverse regions— including the narrow streets of Istanbul, a fishing village on the Aegean, and the sheep-lined roads near Lake Van— showcase the best of Turkish cuisine. Comforts of the countryside and delicacies from the Ottoman Court span every course, from simple meze dishes such as spiced lentil kâfte to sophisticated rose and pistachio sweetmeats for dessert. This enduring travelogue makes a perfect gift for ambitious cooks and armchair travelers alike.

Best Sellers Rank: #1,442,919 in Books (See Top 100 in Books) #67 in Books > Cookbooks, Food & Wine > Regional & International > European > Turkish

## Customer Reviews

Leanne Kitchen worked as a professional chef for 14 years. For the past decade she has worked in food and travel publishing, which has taken her all over Asia and the Middle East from her base in Sydney, Australia.

Love this book, it has some unique recipes and the photos are nice. I got it used from an seller which made it even more of a bargain.

I love this book, it is very colorful and the recipes are truly wonderful. Although some of the recipes have been altered slightly due to what I believe is the Chef's own interpretation which makes it all the more exciting. We all have our own creations and Leanne has shown her love of Turkey through

her writing, her respect and knowledge for all the cultures within and the food. Thank you for creating such a wonderful book for all to enjoy! I highly recommend it!

One of the things I really like about this cookbook is that there are parts of recipes (i.e. sauces like Spicy Bell Pepper Puree, or Garlic Sauce) that can be made to go with anything you might already have in the fridge. You don't necessarily have to make a whole new dish. The photos are beautiful, and the author's text is actually informative & educational. I definitely recommend.

I first saw this book at a neighborhood shop and was instantly drawn to it. I visited Istanbul four years ago and spent six days sampling culinary highlights in between stops to the various sights. That visit made such an impression on me and I have been wanting to go back ever since. What I love about this book is that it richly and colorfully depicts what I felt so deeply when I was there - plentiful and diverse food types, rich culinary histories and stories, a people with a rich history of cuisine development, and fresh everything. I must confess that I have not used a single recipe yet (just received the book a few days ago). I would recommend this as a coffee table book, a conversation starter, an introduction to the ingredients and techniques of one of the great and less-known cuisines outside of . Be prepared to be hungry. You will be inspired to cook and even more to travel. Food is so intrinsically tied to a culture and tells the story of their history and environment. I can't think of anywhere where this is more important than Turkey, where east and west are intrinsically tied together and fought over for thousands of years.

This may be the best possible cookbook of Turkish food. Excellent, clearly presented recipes interspersed with engaging stories about Turkish regions and experiences in the country, and beautifully illustrated into the bargain. A very worthwhile purchase.

I like how the book was done. However, I would like to have had meal plans so I could serve a proper Turkish meal.

Great Book....like being there...

Even if you never make a single recipe from this book, you will love it. The photographs are stunning and it's a strong inducement to travel to Turkey! Recipes are clearly presented and interesting. How could you not want a cookbook by an author named Kitchen?!
