If you order this thinking that you are getting a spotlight to mount on your balcony, you need to be more realistic. It's a knickknack, and for that purpose it's perfect.

this was smaller than i anticipated even tho it says mini, however i got it to fit on my son's batman shelf for his room, and it looks great! and my son absolutely loves that it puts the batman signal on his wall. =) hes 2.5 and has fallen in love with batman! i also love the lil book that it came with which i also put on the shelf! thank you!

Great little light that shows off the bat signal. Worth the price for what you are getting.

It's not bright at all you have to place it close to a wall in the dark to see it Imma say about 2 or 3 feet looks cool. If the bulb was brighter it'll be the perfect night light

Super cute, but batteries drain fast. Our son desperately wants to use this as a night light, but it's just not gonna happen!

Very small but can make a very large bat signal on the wall.

Exactly what we were looking for its small but perfect for a desk, or in our case to forever beam on our babys urn.

I bought 2 of these for a batman theme birthday party to put on the cake table. They really made it look cool and as an added bonus, he could bring them home and use in his bedroom.
