DK Workbooks: Geography, Kindergarten

Synopsis

DK Workbooks: Geography: Kindergarten is a great tool to supplement school curriculum help your Kindergarten student learn geography concepts. Level by level, these write-in DK Workbooks: Geography offer at-home practice that kids actually enjoy – making them ideal supplements to schoolwork. Designed to support the Common Core State Standards, this series is developed with leading educational experts to build confidence and understanding. Each leveled workbook, for children ages three through nine, is packed with activities and challenges, offering the beneficial repetition and cumulative learning that lead to mastery. Fact boxes on each page give a simple overview of the topics being covered, helping children get their bearings, review the basics, and often see an example of the task at hand. The exercises themselves reinforce key geography topics, including: map reading, compass directions, continents, countries and states, borders, bodies of water, and more.

Age Range: 4 - 6 years

Grade Level: Preschool - 1

Customer Reviews

MY daughter loves this book. She is only 4 and we do one lesson a day. Simple enough for a 4 year old to understand basic concepts.

This book along with the other subjects DK offers are perfect for ages 4-6. Simply laid out and easy to understand, they make homeschooling very easy and give the kids something tangible to hold

and keep track in. Lots of the words are simple and great for new readers to sound out also.

Wonderful for teaching the basics of geography and map reading to young kids. Very helpful and fun. We love it.

I LOVE this book but I looked through it and it's a bit advanced for where my son is at right now (he would be getting ready to start kindergarten.) We'll pick it up again in half a year or so.

I wish the pages were perforated.

We use these to supplement our home school activities. We LOVE DK Workbooks. Very clear, concise instructions, great pictures, charts for tracking progress, and I LOVE the perforated pages, however I've found over 2 years of purchasing these books that occasionally one book won't be perforated and that makes it a little harder but still completely love the books and work.

This book does such a wonderful job of introducing very basic geographic skills such as maps, compass rose, symbols, states etc. We have loved using this as an additional resource for our homeschooling.

My 5 year doesn't show much interest in this book. I tried several times. I'm thinking he still maybe a little young for it.
