Not much of a description on many solutions. Just provides answers. Not much help. Also the paper quality is REALLY REALLY cheap. You can see thru the next page's text and that's really annoying especially if you try to take notes or use highlighter. Bleeds thru the pages behind. So horrible!

The solutions are pretty limited in steps to solution, so you will need to know the basics to understand some of the assumed steps to completion. Overall, I am glad I had it to help confirm the final answers from the problems. I would recommend purchase if you will not have another source for the answers.

Very helpful for most problems but there are some where an answer is provided but no feedback on how that answer was achieved. Most everything has the detail but there are some that don't that is why this doesn't get 5 stars.

Doesn't go with the book at all.

Love it.

Awesome!!!

Very useful.

Good complement for the material
